## DIGITAL CONTENT PRODUCER

### B I O

The name is at the top but what's important is that I'm known for my out-of-the-box visuals as a **Digital Content Producer** and to a lesser extent my award-winning smile. Existing in London. I film with flamboyance, I'm often found filming within the Queer, corporate, and creative sectors. Anywhere with great stories to tell. Put it this way, put a camera in my hands and I'll make you look amazing.
